

18,100 - GALLON OPEN TOP

For treatment or storage of storm water, construction water, process plant water, drilling, sewage plants, or oil & gas applications.

Stormtec 18,100 gallon open top tanks allow safe and reliable containment of hazardous and non-hazardous liquids. Our tanks have a "V" shaped floor for ease of draining stored liquids and permanently attached axles to easily maneuver on your jobsite.

Stormtec offers a full range of steel holding tanks in various capacities and configurations, across a variety of industry applications. This includes steel holding tanks with weirs for separation of oils or particulates.

FEATURES

- Mobile.
- Can be configured in multiples.
- Easy to clean.
- No moving parts.
- Fixed rear axle for increased maneuverability.
- Open top for easy access to liquids stored.
- Built-in stair and walkway with safety rails
